

Vehicles and Firearms

VEHICLES ON DISPLAY

The following safety precautions are enforced for all vehicles on display:

- Battery cables must be disconnected and taped
- Fuel tanks cannot exceed ¼ of a tank or 5 gallons
- Fuel tanks and fill opening must be closed and sealed to prevent tampering (taped may be used)
- Fuel tanks must be locked and sealed in an approved manner to prevent the escape of vapors
- Refueling, or removal, of fuel from vehicles on the premises is prohibited
- Vehicles may not be started up, or moved, during show hours
- Keys to vehicle must be maintained by Show Management and/or show security
- Appropriate protection must be placed under vehicle to protect the floor in the event of fluid leaks.
- Booth must be fully carpeted or covered by an approved surface under the vehicle.
- Additionally, an overhead schematic of the booth denoting the location of the motor vehicle within the booth should be emailed to Russell Davenport, Freeman, at mariann.barta@freemanco.com

FIREARMS DISPLAYS

Exhibitors wishing to display firearms must submit a copy of a valid federal firearms license to the Walter E. Washington Convention Center and to the Metropolitan Police Department at least 15 days before the event.

The exhibitor must obtain security arrangements with CES (the official security vendor) for any displayed firearms that have been approved in advance.

For more information, contact Khaoula Maddur, Event Manager at 202-249-3323, kmaddur@dcevents.com or the Convention Center's Security Services Department at 202-249-3046.
