

WHERE TO CATCH THE BUS

Company	Product	Infrastructure	Process language	Routing	Management interface	Communications Support	Visualization	Logging/reporting
BEA Systems www.bea.com	AquaLogic Service Bus	Distributed	BPEL	XQuery, XSLT	JMX	FTP, HTTP(S), JMS, e-mail (POP/SMTP/IMAP)	Aggregates statistics at runtime to display in customized dashboard	Service monitoring, logging and auditing with search capabilities
Cape Clear Software www.capeclear.com	Cape Clear	Distributed	BPEL	XPath, XQuery, XSLT	SNMP, JMX	WS-ReliableMessaging, HTTP, JMS, SMTP, FTP	Eclipsed-based graphical modeling	Business Activity Monitoring
Cordys www.cordys.com	Cordys	Distributed	BPML	XSLT		Microsoft MQ, HTTP, JMS	Modeling	Reporting
Fiorano Software www.fiorano.com	FioranoESB Suite	MOM	Fiorano, BPEL	XSLT	SNMP, JMX	FioranoMQ, JMS, HTTPS, FTP, CORBA	Graphics-based modeling	Supports asynchronous event-based notification via tracing, logging, auditing and monitoring messages, documents and services
FusionWare www.fusionware.net	FusionWare Integration Server	Centralized	FusionWare	XSLT		HTTP, SMTP	Textual display	Reporting and logging
Iona Technologies www.iona.com	Iona Artix	Distributed		Non-content-based routing	JMX, SNMP, Tivoli, BMC Patrol	CORBA, JMS, HTTP	Modeling via Chain Builder	Logging and reporting
PolarLake www.polarlake.com	PolarLake IntegrationSuite	Centralized	BPEL	XSLT, XPath	SNMP, BMC Patrol, HP OpenView via JMX	JMS, HTTP(S), SMTP, FTP	Eclipse-based graphical modeling	Business Activity Monitoring
Sonic Software www.sonicsoftware.com	Sonic ESB	MOM	Sonic	XSLT, XQuery	SNMP	SonicMQ, JMS, HTTP, SMTP, FTP	Sonic Integration Workbench supports visual process-model definition, validation and simulation.	Monitors and diagnoses distributed systems through logging and auditing services, faults and process status
