

# >>> Top 140 Schedule 70 contractors

**Northrop Grumman leads this year's list of top Schedule 70 contractors with reported sales of \$3.2 billion in fiscal 2005. The General Services Administration's Schedule 70 contracts are a primary source of information technology products and services for feds and a bellwether of federal IT market activity. Based on sales, Lockheed Martin and Science Applications International Corp. are perched not far behind Northrop Grumman on the list of top contract holders. Both companies collected more than \$2.3 billion each in sales.**

**Eagle Eye Publishers, a market research company, compiled the sales figures on which the chart is based.**
