## Government IT rocks

**T**he government information technology community let its hair down at the second annual GIT Rockin' battle of government IT bands. The bands played at the State Theater in Falls Church, Va.

GIT Rockin' is sponsored by the 1105 Government Information Group, which owns Federal Computer Week. For the second year, the event benefited the United Services Organizations-Metro and its outreach centers. The evening raised more than \$17,000 for USO.

To be eligible to participate in GIT

Rockin', bands had to have at least two members from the government IT community.

When the audience votes were counted, the big winner was **The Groove** (A), which included band members from EMC Software and Formatta.

The other GIT Rockin' bands were:

- The **DISA-Peering Act**, also known as Troubled Spirit (B)
- The **Moogly Blues Band** (C)
- **Outta Scope** (D)
- **Tacocat** (E)
