

## For hardware, FirstSource will parallel Eagle

The Homeland Security Department's other large technology contract, called FirstSource and intended for IT commodities, is running in parallel with the Eagle project.

The department plans to award FirstSource contracts on July 31.

The FirstSource contracts likely will be awarded for two-year base periods with three one-year option periods.

Products will include, but not be limited to:

- ☐ IT equipment and software
- ☐ Networking equipment
- ☐ Wireless technology
- ☐ Imaging products
- ☐ Voice recognition technology
- ☐ Online data reporting services for order, delivery, warranty, asset and spend tracking
- ☐ Associated product maintenance, installation and support.
