DISASTER RECOVERY TOOLS

VENDOR	PRODUCT(S)	MAJOR FEATURES
Double-Take Software Southborough, Mass. (888) 674-9495 www.doubletake.com	Double-Take	Asynchronous replication and continuous data protection; Microsoft Cluster Service support, manual and automatic failover, up to 64 snapshots
	GeoCluster	Data protection for Microsoft Cluster Service; "stretch" clusters with multiple replicated data stores, Double-Take failover
EMC Corp. Hopkinton, Mass. (866) 283-8841 www.emc.com	AutoStart	Application failover automation and management; Exchange, Oracle, SQL Server and VMWare virtual server support, RepliStor and SRDF integration (see below)
	RepliStor	Asynchronous replication for Windows; Microsoft Volume Shadowcopy Service (VSS) support, centralized backup management
InMage Systems Inc. Santa Clara, Calif. (408) 200-3840 www.inmage.net	DR-Scout	CDP and file- and volume-level asynchronous replication appliance; modeling, application-level Exchange failover
Neverfail Inc. Austin, Texas (512) 327-5777 www.neverfailgroup.com	Neverfail Heartbeat	"Cluster-class" asynchronous replication, low-bandwidth optimization, network monitoring; BlackBerry, Exchange, File Server, IIS and SQL Server versions
	Neverfail Data Rollback Module	CDP; Microsoft Volume Shadowcopy Service support, up to 512 stored snapshots
Software AG USA Reston, Va. (703) 860-5050 www.softwareagusa.com	Event Replicator	Asynchronous, two-way replication for Adabas databases; updating of multiple hot-standby sites
SteelEye Technology Inc. Palo Alto, Calif. (866) 318-0108 www.steeleye.com	LifeKeeper	High-availability clustering and asynchronous replication; centralized backup, WAN address migration, support for both local shared storage and remote storage
Symantec Corp. Cupertino, Calif. (408) 517-8000 www.symantec.com	LiveState Recovery 6.0	Can recover systems from bare-metal state to dissimilar hardware platforms or virtual environments; bandwidth throttling while creating recovery points
	Veritas Volume Replicator	HA clustering; support for Veritas and third-party replication (EMC SRDF, IBM, etc.), up to 32 servers per cluster, Fire Drill testing
TimeSpring Software Corp. Newport Beach, Calif. (888) 375-7634 www.timespring.com	TimeData	Asynchronous and synchronous replication; up to 32 secondary targets per application/server, SAN device independence, database consistency protection
XOsoft Waltham, Mass. (781) 419-5200 www.xosoft.com	Enterprise Rewinder	CDP for Exchange, Oracle and SQL Server; complete change record, application monitoring and alerts, bookmarks of known states
	WANSync	Asynchronous replication for Windows; Exchange, IIS, Oracle and SQL Server; rewind on replica server, nondisruptive testing, bandwidth estimator
