# GEOGRAPHIC INFORMATION SYSTEMS

| VENDOR | PRODUCT(S) | DESCRIPTION |
|---|---|---|
| **Autodesk Inc.**<br>San Rafael, Calif.<br>(415) 507-5000<br>www.autodesk.com | Autodesk Map 3D | Software for creating and editing spatial data; includes mapping functionality for integrating computer-aided design and GIS information |
| **ESRI Inc.**<br>Redlands, Calif.<br>(909 ) 793-2853<br>www.esri.com | ArcGIS, ArcEditor, ArcExplorer, ArcIMS, ArcWeb Services | Full spectrum of geospatial software, including servers, clients and Web interfaces; ArcWeb Services, just released, provides a JavaScript API for building Adobe Flash-based map applications into Web sites |
| **GeoViz.com Inc**<br>Whittier,Calif.<br>(626) 333-0000<br>www.geoviz.com | GeoViz Client/Server, GeoViz Light, GeoViz Record/Playback and DVR, GeoViz Commander Station, Planet GeoViz | Acquired by SAIC in July; GeoViz Client/Server provides dynamic, real-time, Web-centric, peer-to-peer collaboration among systems; users share content via instant-messages, maps, 3-D terrain, images, Commercial Joint Mapping Toolkit (C/JMTK) content, and other data, connecting to C4ISR, HLS, GIS and various operational environments |
| **Google Inc.**<br>Mountain View, Calif.<br>(650) 253-0000<br>earth.google.com | Google Earth Enterprise, Google Earth Fusion, Google Earth Server, Google Earth Enterprise Client | Combines enterprise GIS data with Google-provided mapping (either running locally, or provided by Google as an application service provider); vehicle locations, store data, properties and GIS layers can be viewed in context with 2-D orthoimagery and 3-D renderings |
| **Intergraph Corp.**<br>Huntsville, Ala.<br>(256) 730-2000<br>www.intergraph.com | GeoMedia, TerraShare, Digital Cartographic Suite, Modular GIS Environment, MicroStation | Intergraph provides hardware and software for analysis, collection and sharing of geospatial data; company has ceased development of its MicroStation-based MGE, and is migrating users to the GeoMedia suite |
| **MapInfo Corp.**<br>Troy, N.Y.<br>(518) 285-6000<br>www.mapinfo.com | MapInfo Professional, MapInfo MapX, MapInfo MapXtreme, MapBasic | Mapping and geographic analysis tools; MapX embeds mapping functionality in other applications; MapXtreme provides Web-based access to mapping and location applications; MapBasic is an application development environment for MapInfo Professional |
| **Microsoft Corp.**<br>Redmond, Wash.<br>(425) 882-8080<br>www.microsoft.com/virtualearth | MapPoint 2006, Virtual Earth Platform | Latest version of MapPoint, a mapping application with geographic and demographic data, integrates GPS; can work with Virtual Earth, Microsoft's Google Earth competitor, to pull in satellite imagery; Virtual Earth is SOA-based and offers data management services including storage and batch geocoding of user's points of interest |
| **Oracle Corp.**<br>Redwood Shores, Calif.<br>(650) 506-0024 | Oracle 10g, Oracle 10g Locator, Oracle 10g Spatial | OpenGIS standards-based locator with capabilities to store, index and manage location content and query location relationships; Oracle 10g Spatial adds advanced spatial information management features such as a network data model, topology, GeoRaster support and built-in geocoding |
