Price: \$4,500

Performance: **B-**
Features: **A**
Battery life: **A+**
Value: **B-**

Reviewer's comments: With amazing battery life in a four-pound notebook, the CF-18 is a great tool for people needing a ruggedized system. A bright screen complements the package. We've seen faster notebooks, but the CF-18 should run most tablet or notebook applications without problems—and do it in conditions that would kill most other laptops.
