Foot Protection

YES NO	Does your written foot protection program include footwear and working surfaces?
YES NO	Does it require the reporting of injuries?
YES NO	Are program elements enforced and reviewed on a regular basis?
YES NO	Is your foot protection selection based upon a documented hazard assessment?
YES NO	Is there a documented review of employee-owned or provided footwear?
YES NO	Is there a policy stating defective or damaged foot protection must not be used and must be removed from service?
YES NO	Is disciplinary action used when employees do not adhere to the policy?
YES NO	Is training complete and documented for all employees?
YES NO	Are all exposed employees wearing protective footwear when necessary?
YES NO	Are all foot protection items maintained according to the manufacturer's recommendations?
YES NO	Do employees know how to report damaged footwear when it is provided by the company?
YES NO	Are employees instructed on the types of hazards that may cause foot injuries and on preventative measures?
YES NO	Is there a reporting procedure in place for footwear evaluation and selection?
YES NO	Are scrap, debris, and waste stored safely and removed from the work site properly?
YES NO	Are aisles and passageways kept clear from tripping hazards?
YES NO	Are wet surfaces covered with non-slip materials?
YES NO	Are changes of direction or elevation readily identifiable?
YES NO	Are aisles or walkways near moving or operating machinery, welding operations, or similar operations arranged so employees will not be subjected to potential hazards?
YES NO	Are step risers on stairs uniform from top to bottom?
YES NO	Are steps on stairs and stairways designed or provided with a surface that renders them slip resistant?
YES NO	Where the ground or surface is wet underfoot, do employees wear impervious boots, shoes, rubbers, or other appropriate shoes?
