

VIRTUAL PRIVATE NETWORKING

VENDOR	PRODUCT(S)	NOTES	VENDOR	PRODUCT(S)	NOTES
AEP Networks Inc. Rockville, Md. (800) 495-8663 www.aepnetworks.com	Netilla Security Platform	SSL appliance; 1,000 sessions, FIPS-140-2-certified hardware security module, clustering, failover, firewall	Cisco Systems Inc. San Jose, Calif. (800) 553-6387 www.cisco.com	Cisco ASA 5000 Series	IPSec/SSL appliance; 2,500 SSL, 5,000 IPSec concurrent users, 325 Mbps, firewall, threat mitigation, multimedia QoS, failover
	SmartGate	SSL software; 100,000 concurrent users, FIPS-certified, satellite connection support, remote cache cleaning		Citrix Systems Inc. Fort Lauderdale, Fla. (800) 424-8749 www.citrix.com	Citrix Access Gateway Enterprise Edition
Array Networks Inc. Milpitas, Calif. (866) 692-7729 www.arraynetworks.net	SPX 3000	SSL appliance; 2,500 concurrent users, 300 Mbps, 25 virtual portals, remote cache cleaning, clustering, hardened proprietary OS	Granite Systems Inc. Los Gatos, Calif. (888) 410-1115 www.granite.com	SafeConnect	Proprietary software; FIPS-certified (pending, Q2 2006), firewall filtering, session management
	SPX 5000	SSL appliance; 64,000 concurrent users, FIPS-certified, 256 virtual portals, hardware acceleration, 32-unit clustering, 850 Mbps		F5 Networks Inc. Seattle (888) 882-4447 www.f5.com	FirePass 1000
Aventail Corp. Seattle (877) 283-6824 www.aventail.com	EX-1500	SSL appliance; 100 concurrent users, integrity checking, virtual encrypted desktop, two-unit clustering, load balancing	Juniper Networks Inc. Sunnyvale, Calif. (888) 586-4737 www.juniper.net	FirePass 4100	SSL appliance; 2,000 concurrent users, FIPS-certified, clustering, F5 BIG-IP traffic management, open Win32 API and SDK
	EX-2500	SSL appliance; 2,000 concurrent users, FIPS-certified, eight-unit clustering (80,000 concurrent users), load balancing		WatchGuard Technologies Inc. Seattle (206) 521-8340 www.watchguard.com	NetScreen-5200/5400
Caymas Systems Inc. San Jose, Calif. (408) 985-9000 www.caymas.com	Caymas 220	SSL appliance; 100 concurrent users, proprietary real-time OS kernel, 100 Mbps	CheckPoint Software Technologies Inc. Redwood City, Calif. (650) 628-2000 www.checkpoint.com	Secure Access 4000	SSL appliance; 1,000 concurrent users, Common Criteria (optional FIPS certification), license-based SSL acceleration and compression
	Caymas 318	SSL appliance; 500 concurrent users, FIPS-certified, proprietary real-time OS kernel, 300 Mbps		WatchGuard Technologies Inc. Seattle (206) 521-8340 www.watchguard.com	Firebox SSL Core
CheckPoint Software Technologies Inc. Redwood City, Calif. (650) 628-2000 www.checkpoint.com	VPN-1 Pro	IPSec/SSL appliance; FireWall-1, VoIP QoS, multicast security, clustering, load sharing, route-based VPNs
