

Roles for Servers in the SCW Database

Application server	ASP.NET session state server	Audit collection server
BizTalk 2004 Business Activity server	BizTalk 2004 EDI Integration server	BizTalk 2004 Human Workflow server
BizTalk 2004 Messaging and Orchestration server	BizTalk 2004 Rules Engine	Certificate server
Cluster server	Commerce Server 2002	DFS server
DHCP server	DNS server	Domain controller (Active Directory)
Enterprise Single Sign-On server	Exchange 2003 back-end server	Exchange 2003 front-end server
Fax server	File and Print server for NetWare	File server
File server for Macintosh	FTP server	Host Integration Server 2004 MSMQ-MQSeries Bridge
Host Integration Server 2004 SNA Application Integration	Host Integration Server 2004 SNA Application Support	Host Integration Server 2004 SNA Data Integration
Host Integration Server 2004 SNA Gateway	IAS server (RADIUS)	Internet Connection Sharing server
Message queuing server	Microsoft Identity Integration Server 2003	Microsoft Internet Security and Acceleration Server 2004
Microsoft Operations Manager 2005 server	Microsoft Operations Manager 2005 Workgroup Edition server	Middle-tier application server (COM+/DTC)
MSDE database server for UDDI	NNTP (Usenet news) server	POP3 server
Print server	Print server for Macintosh	Print server for Unix (LPD)
Remote access/VPN server	Remote installation server	Remote Storage server
SharePoint Portal Server	SMS Client Access Point	SMS Logon Point
SMS Management Point	SMS Primary Site server	SMS Reporting Point
SMS Secondary Site server	SMS Server Locator Point	SMTP server

SNMP server	SNMP trap server	SQL Server 2000
SQL Server 2000 Reporting Services	SQL Server Analysis Services 2000	Streaming media server
Telnet server	Terminal server	UDDI Web server
Web server	Windows SharePoint Services	WINS server

Client Features Included in the SCW Database

Audit collection forwarder	Automatic update client	DHCP client
DNS client	DNS registration client	Domain member
FTP client (normal mode)	Group Policy administrative client	Host Integration Server 2004 Client
Microsoft networking client	Microsoft Operations Manager 2005 agent	NetWare client
Remote access client	SMS Advanced Client	SMS Legacy Client
SQL client	WebDAV client	WINS client

Ports Associated with Services and Features in the SCW Database

(Note: This is not a comprehensive port list. It only shows ports used by Windows-based services that are included in the SCW database.)

7 (Echo)	9 (Discard)	13 (Daytime)
17 (Quotd)	19 (Chargen)	20 (FTP data channel (normal-mode))
21 (FTP command channel)	23 (Telnet)	25 (SMTP)
42 (WINS Replication)	53 (DNS)	67 (DHCP Server)
69 (TFTP)	80 (HTTP)	88 (Kerberos)
110 (POP3)	119 (NNTP)	123 (NTP)
135 (RPC endpoint mapper/DCOM)	135 (RPC endpoint mapper over UDP)	137 (NetBIOS name service)
138 (NetBIOS datagram service)	139 (NetBIOS session service)	143 (IMAP4)
161 (SNMP)	162 (SNMP Traps)	389 (LDAP)
389 (LDAP Discovery)	443 (HTTPS)	445 (SMB)
464 (Kerberos Password Change)	515 (LPR)	548 (AFP (Apple File Protocol) over TCP/IP)

554 (RTSP)	563 (NNTP over SSL)	636 (LDAP over SSL)
691 (Exchange Routing Link State Algorithm)	993 (IMAP4 over SSL)	995 (POP3 over SSL)
1270 (MOM)	1433 (SQL over TCP)	1434 (SQL Server Resolution Service)
1477 (SNA Server)	1478 (SNA Base)	1478 (SNA Base)
1645 (RADIUS authentication (legacy))	1646 (RADIUS accounting (legacy))	1717 (NLBS Remote Control (legacy))
1755 (MMS)	1812 (RADIUS authentication)	1813 (RADIUS accounting)
2393 (OLAP Services 7.0)	2394 (OLAP Services 7.0)	2504 (NLBS Remote Control)
2701 (SMS Remote Control (control))	2702 (SMS Remote Control (data))	2703 (SMS Remote Chat)
2704 (SMS Remote File Transfer)	2725 (SQL Analysis Services)	2883 (AirSync Notification)
3268 (Global Catalog)	3269 (Global Catalog over SSL)	3343 (Cluster Services)
3389 (Remote Desktop Protocol)	4011 (BINL)	5005 (RTCP)
8098 (Remote Web administration)	42424 (ASP.NET Session State)	50002 (DRDA Resync)
51909 (ACS)	64131 (SCW helper)	

Items Classified as "Applications" in the SCW Database

adtserver.exe (Remote administration for Audit Collection Server)
 BTSNTSvc.exe (BizTalk Host Instances)
 certsrv.exe (Certificate Server)
 clussvc.exe (Cluster Services)
 dllhost.exe (DCOM)
 dmadmin.exe (Logical Disk Manager Administrative Service)
 dmremote.exe (Logical Disk Manager Remote)
 dsamain.exe (Microsoft ISA Server Enterprise Storage)
 emsmta.exe (Exchange MTA/X.400)
 ENTSSO.exe (Enterprise Single Sign-On)
 Helpctr.exe (Remote Assistance expert)
 HelpCtr.exe (Remote Assistance voice)
 Helpsvc.exe (Remote Assistance novice (offer receive mode))

inetinfo.exe (FTP data channel (passive-mode))
inetinfo.exe (Remote administration for IIS and related components)
llssrv.exe (License Logging)
lsass.exe (Active Directory Replication)
lsass.exe (NetLogon)
mad.exe (Exchange System Attendant)
mngagent.exe (Remote administration for HIS (Management Subsystem))
mqdssvc.exe (MQDS)
mqsvc.exe (MSMQ)
msdtc.exe (Remote DTC)
MsMgmtAuxiliary.exe (MOM Agent Installation)
mssearch.exe (SharePoint Search)
nissvc.exe (Server For NIS)
ntfrs.exe (File Replication)
rslnk.exe (Remote storage)
rsserv.exe (Remote administration for remote storage server)
scshost.exe (SCW Engine)
snarpcsv.exe (Remote administration for HIS (RPC))
sqlservr.exe (SQL over RPC)
srsmain.exe (Exchange SRS)
ssosrv.exe (SharePoint Single Signon)
store.exe (Exchange Store)
svchost.exe (System RPC applications)
tcpvcs.exe (Remote administration for DHCP)
tlntsvr.exe (Remote administration for Telnet server)
tn3servr.exe (TN3270)
tn5250.exe (TN5250)
tssdis.exe (Terminal Services Session Directory)
unsecapp.exe (SMS Administrator Console)
vds.exe (Virtual Disk Service)
vdsldr.exe (Virtual Disk Service Loader)
VMwareService.exe (VMware Tools Service)
wins.exe (Remote administration for WINS)
wmserver.exe (Windows Media Server)
wsrcm.exe (Windows System Resource Manager)

Items Classified as "Administration and Other Options" in the SCW Database

Alerter	Application Experience Lookup Service	Application installation from Group Policy
Audio	Background Intelligent Transfer Service (BITS)	Backup (NT or 3rd party)
Backup to local hardware	Browse master	Browser
Certificate publication to shared folders	Commerce Server Direct Mailer	Commerce Server Predictor
Content indexing	Distributed transactions over RPC	EMS command prompt channels
Error reporting	Exchange 2003 HTTP server	Exchange 2003 IMAP4 server
Exchange 2003 NNTP server	Exchange 2003 POP3 server	Exchange 2003 SMTP server
Exchange Event Service	Exchange MTA	Exchange POP3 connector
Exchange Site Replication Service	Exchange system attendant	File replication
Global catalog	Help and support	Host File Access
IAS JET database access for 64-bit systems	IIS 5.0 compatibility mode	Infrared device support
Internet Printing	IPsec Services	IPv6 support
Join a cluster	License logging	Link tracking for users' shortcuts
Local application installation	LU6.2 Resync Service for distributed transactions	Mail-based Active Directory replication
Messenger	Microsoft Internet Security and Acceleration Server 2004 Enterprise Edition: Configuration Storage	Microsoft Internet Security and Acceleration Server 2004: Client installation share
Microsoft Internet Security and Acceleration Server 2004: MSDE logging	MOM to MOM Connector	MSDE database for SharePoint Portal Server
MSDE database for Windows SharePoint Services	MSMQ over HTTP	MSMQ support for pre-Windows XP clients
MSMQ triggers	NetView	NetView Alert
NetView Run Command	Offline Root CA	Performance data collection

Print	Remote Access Quarantine Agent	Remote administration for Audit Collection server
Remote administration for DHCP	Remote administration for Host Integration Server	Remote administration for IIS and related components
Remote administration for Microsoft Exchange	Remote administration for MOM Management server	Remote administration for Network Load Balancing
Remote administration for Remote Storage server	Remote administration for Sharepoint Portal server	Remote administration for Telnet server
Remote administration for UDDI	Remote administration for WINS	Remote Assistance expert
Remote Assistance novice (offer receive mode)	Remote Assistance novice (solicited request mode)	Remote Assistance voice
Remote desktop administration	Remote disk management	Remote disk management client
Remote SCW configuration and analysis	Remote SCW policy authoring	Remote SCW UI helper
Remote Web-based administration	Remote Windows administration	Remote WMI
Removable media installation and management	RPC locator	RSOP planning mode
SBS monitoring	Search	Shadow copying
Simple TCP/IP services	SMS Administrator Console	SMS Distribution Point
SMS Hardware Inventory Agent	SMS Remote Control	SMS SQL Monitor
SNA 5250 Demo Service	SNA DDM Demo Service	SNA DRDA Demo Service
SNA ODBC Demo Service	SNA Print Service	SQL Client Named Pipes network library
SQL Server Active Directory helper	SQL Server agent	SQL Server Multiprotocol over Named Pipes
SQL Server Named Pipes network library	SQL Server TCP/IP Sockets network library	Task scheduler
TCP/IP Resync Service for distributed transactions	Terminal Server clustering	Terminal Server licensing
Terminal Server printer redirection	Time synchronization	TN3270

TN5250	UPS	Web proxy auto-discovery
Web-based certificate enrollment	Windows firewall	Windows image acquisition
Windows product activation	Windows Sharepoint Services SMTP integration	Windows system resource management
Windows User Mode Driver Framework	Wireless Networking and 802.1X Authentication
